

To Whom It May Concern:

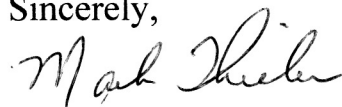

I would like to personally thank the Golden Gates Moscow Nights performers for being a part of the orchestra program here at All Saints Academy. The students were quite interested in the different instruments presented during our sessions.

The performers themselves, who were all outstanding musicians, were very good with my middle school students. They were willing to answer any and All questions directed to them. Their choice of music was such that would keep the attention of 12-14 year old students.

The performance for the student body later in the week showed the groups virtuosity, creativity, and versatility. The entire school was kept entertained during the entire time.

It was a pleasure to have this fine group of artists visit our school. I feel certain that my students gained a great deal of understanding and respect for the music from a different part of the world.

Sincerely,

Mark Thielen
Orchestra Director, ASA
